DISASTER RECOVERY ▼

Eagle-SWS has been providing disaster recovery and cleanup services for several decades. From hurricanes to tornadoes and from forest fires to floods, we have always been involved in aiding government and industry in the aftermath of natural disasters. Eagle-SWS has provided these services in support of some of the nation's greatest disasters including:

- ◆ Hurricanes Andrew, Charlie, Ike, Ivan, Katrina, Opal, Rita and Wilma
- ◆ Forest fires across the state of Florida
- ◆ Major river flooding of Alabama, Illinois, Louisiana, Mississippi, and other states
- ◆ The World Trade Center terrorist attack on September 11, 2001
- ◆ Anthrax contamination at United States Postal Facilities
- ◆ Major oil releases nationally and internationally

The success of a disaster recovery project requires the availability of tremendous resources - experienced and knowledgeable personnel, versatile and dependable equipment, financial strength, and logistical expertise. Eagle-SWS possesses all these things and is prepared to deploy personnel and resources at a moments notice. The strength of our services comes from experienced management in dealing with disaster recovery and emergency response incidents over the past three decades.

Services available in response to natural disasters:

- ◆ Debris removal and reduction
- ◆ Temporary debris storage and reduction site construction
- ◆ Marine/vessel removal, recovery, and salvage
- ◆ Hazardous waste collection, transport, staging, and permanent disposal
- ◆ Demolition of unsafe structures
- ◆ Decontamination and cleanup
- ◆ Beach restoration and replenishment
- ◆ Fuel and water delivery

Our goal is to consistently provide our clients with the highest level of technical competence, strong project management, integrated health & safety, and quality control with an emphasis on financial accountability for all projects.
